

Electric Fires Collection

SEPTEMBER 2022

 **Dimplex**[®]

Imagine the difference

Transform your home with a Dimplex electric fire.

Treat the whole family to the beauty of a real fire, but with the simplicity of electric.

Not only are Dimplex fires 100% efficient at point of use, they have a flame only setting, so can be used year round for creating a cosy room even when you don't require heating. Plus, they're independently approved to Europe's highest electrical product safety standard.

Discover the difference

Whether your home is in the city or the country, compact or spacious, old or new, there is a Dimplex fire that will be just right for you.

We offer a range of different styles, from stoves to full fireplace suites, and flame effects ranging from a convincing illusion to flame all but indistinguishable from the real thing. So explore our range and we're sure you'll find the perfect fire to make your house a home.

So snuggle into your favourite armchair, relax and unwind.

Reassuringly Dimplex

We appreciate that choosing a new fire for your home can be an important decision, which is why you want to be able to see a variety of fires and actually touch, try and see the realism of the flame effect for yourself.

To give you every confidence that you're buying the right fire, we've created a network of Dimplex retailers around the country, each with a range of fires on display. They'll be happy to guide you through all the different options available as well as demonstrating a selection of fires in operation in their showrooms.

Our retailers are your guarantee of the expert advice and individual customer service you can expect from Dimplex.

Dimplex
Centre

Dimplex Centres have a minimum of **four** fires on display including at least **one** from our Optimyst range.

Dimplex
CentrePlus

Dimplex CentrePlus retailers have a minimum of **seven** fires on display including at least **three** from our Optimyst range.

3
YEAR
GUARANTEE

When registered within
28 days of purchase

dimplex.co.uk/register

3-Year Guarantee

Wherever you see this logo in this brochure, it means that when you buy the fire featured from a Dimplex Centre or CentrePlus retailer, you are entitled to a free upgrade from our standard 1-year guarantee to a 3-year guarantee. To take advantage of this, simply complete the online registration within 28 days of purchase at www.dimplex.co.uk/register, or call us on **0344 879 3588** if you do not have access to the internet. Products must be installed in accordance with the manufacturer's instructions and maintained in line with the Terms & Conditions, which are available at www.dimplex.co.uk/terms.

Safety First

All Dimplex fires are BEAB approved* - this means they are independently approved to Europe's highest electrical product safety standards.

*Approved or awaiting approval at time of printing

Opti-V[®]

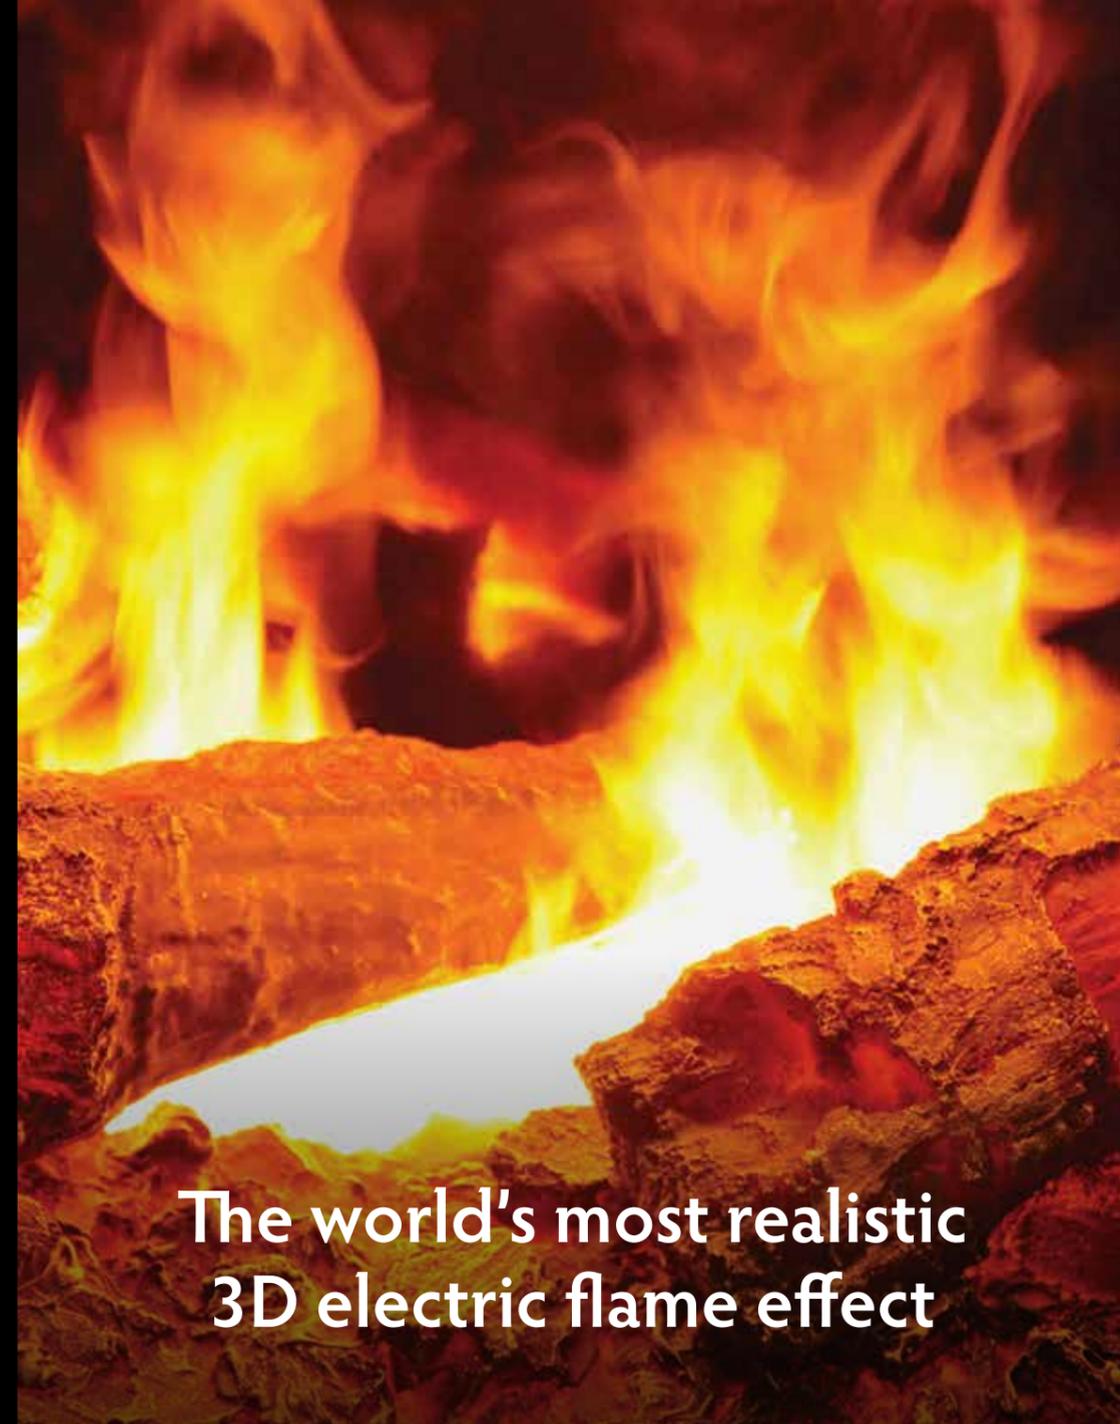

Opti-V is unlike any other electric flame effect fire. Its flickering flames are created via an HD TV screen with discreet LED lighting glimmering deep in each log.

Crackling logs sound effects (with adjustable volume) add to Opti-V's extraordinarily realistic appearance, so if you are looking for something that's going to wow your friends, this is the effect for you.

Opti-V is available in a selection of freestanding stoves and wall mounted fires. Please see technical pages (pages 74-75) for a summary of models.

**High-definition
flame illusion**

**The world's most realistic
3D electric flame effect**

Optimyst[®]

An Optimyst fire provides the beauty of a real fire with the simplicity of electric and will captivate you from the moment you see it.

The authentic three-dimensional flame and smoke effect is created by lights reflecting against ultra-fine filtered water mist, an illusion so realistic you will find it difficult to distinguish from the real thing. The flame effect can also be adjusted from gentle 'embers' to 'roaring flame' to give you the flame picture of your choice.

Optimyst electric fires are the ultimate in 'plug in and enjoy' as most don't require any installation, come with a 2kW thermostatically controlled heater - just in case you need a quick burst of heat and the flame effect works independently of the heater*.

Optimyst is available in a wide selection of fires across freestanding stoves, inset or wall mounted fires and complete suites, to enhance the ambiance of any home. Please see technical pages (pages 74-75) for a summary of models.

*Specifications for each model do vary, so please check technical details on individual fires on page 74.

Optiflame^{3D}

Optiflame 3D offers a new kind of realistic electric flame. For the first time, a 2D effect is given 3D depth, by creating the illusion of seeing through the flames to the back of the fire.

Optiflame 3D gives the power of choice over flame colour and intensity. Add a blue flame to mimic a gas fire or choose a deep orange for a glorious glow. Depending on the time of day, or how you feel, the flame can be adjusted from low to high, or pulsating, plus you can adjust a down light to enhance the drama.

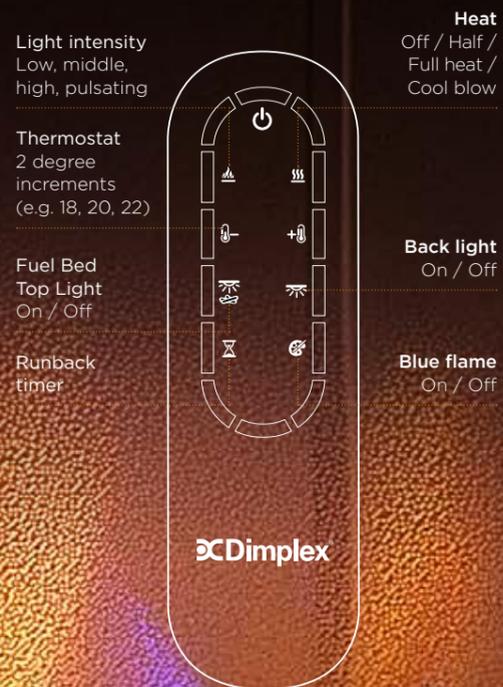

The fuel bed can also be customised with beautiful crystals, realistic logs, coal and pebbles all supplied to create your own unique fuel bed*.

All Optiflame 3D fires have a 2kW thermostatically controlled heater in case you want a quick burst of heat, yet the flame effect also works independently of the heater, so you can still enjoy that cosy feeling on milder days.

Optiflame 3D is available in a wide selection of inset fires in different designs and finishes, to complement your home. Please see individual product pages for details.

*Pebbles available on selected models only.
Please check technical details on individual fires on pages 74-75

3D illusion and the power of choice

The original electric flame

Optiflame[®]

Optiflame is the original Dimplex electric flame effect that revolutionised the market when first launched in 1988. Endlessly refined over the years it remains the UK's most popular electric flame effect, as it's our most cost-effective flame technology. Most Optiflame fires come with a 2kW thermostatically controlled heater just in case you need a quick burst of heat, yet the flame effect also works independently of the heater,* so you can still enjoy that cosy feeling on milder days.

Optiflame is available in a wide selection of fires across freestanding fires or stoves, inset or wall mounted fires and complete suites, to enhance the ambiance of any home. Please see technical pages (pages 74-75) for a summary of models.

*Specifications for each model do vary, so please check technical details on individual fires on pages 74-75.

Stoves and basket

Snuggle up with a Dimplex freestanding stove and bring character to any home.

As they don't require a fireplace, stoves allow for versatility and flexibility in arranging your room; simply plug in and enjoy.

The range includes compact, medium or large sizes, traditional or modern designs, different colours and finishes, plus a choice of flame effects, mean that there really is a stove to suit all budgets and decors.

So, whether you're looking for a convincing illusion or a stunningly realistic electric flame, we have a stove to suit you.

As well as freestanding stoves, we also offer the Silverton, our Optimyst decorative basket fire which can reignite an old fireplace at the touch of a button.

SNG20

This large cast-iron style stove has a single glass window for optimum viewing of the incredible flame effect and comes complete with the optional sound of gently crackling logs.

- Opti-V flame effect
- Opening door with chrome handle
- Log effect fuel bed

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers.

LVT20

The Laverton freestanding electric stove incorporates the unique Optiflame 3D – the latest in flame technology from Dimplex. Creating a realistic and captivating 3D flame effect, the Laverton is a stunning classic design, which will compliment any interior.

- Optiflame 3D effect, creating illusion of seeing through flames to back of fire
- Single opening door
- Logs, crystals & vermiculite fuel bed
- Run back timer and cool blow function

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers.

WLL20

This medium-sized stove brings a modern twist to a classic stove design. The contemporary styling of the single opening door and chrome effect handle are offset by the traditional black cast-iron effect casing.

- Optimyst flame effect
- Single opening door
- Electronic display with touch screen sensitive control
- Log effect fuel bed
- Compatible with hearth pad HPD001

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers.

MRB20

This large, luxurious cast-iron style stove combines a modern creamy-white gloss enamel style finish with a classic design. It looks good sat in an existing fireplace or freestanding against a wall.

- Optimyst flame effect
- Two opening doors for added realism
- Log effect fuel bed

3 YEAR GUARANTEE
When registered within 28 days of purchase
dimplex.co.uk/register

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers.

BRG20

The Burgate is a large cast-iron style Optimyst stove with stylish black gloss finish. Able to sit subtly against a wall or within an existing fireplace, this fire is ideal for a larger living or dining room.

- Optimyst flame effect
- Two opening doors for added realism
- Log effect fuel bed

3 YEAR GUARANTEE
When registered within 28 days of purchase
dimplex.co.uk/register

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers.

OKT20

This medium-sized stove offers the classic look and feel of a traditional solid fuel fire, with the simplicity and controllability of electric technology. Its size makes it popular with homeowners wishing to create the look and feel of an open fire.

- Optimyst flame effect
- Two opening doors for added realism
- Log effect fuel bed
- Compatible with hearth pad HPD001

SKG20BLN Log bed

The Stockbridge full-sized, cast iron style stove gives a truly authentic look and feel to your fire. With our Optiflame effect, the Stockbridge is an ideal solution for those seeking a striking large stove style fire.

- Latest Optiflame effect with LED lighting and downlight for improved flame picture
- Two opening doors for added realism
- Choice of real coal or log effect fuel bed (both options included)
- Compatible with stove pipe accessory STP001

CHV20N

This full-sized cast-iron style stove has been designed to work in traditional or modern styled homes. With a gentle cream finish, this elegant fire subtly provides comfort and ambience in your home.

- Latest Optiflame effect with LED lighting and downlight for improved flame picture
- Two opening doors for added realism
- Choice of real coal or log effect fuel bed (both options included)

CVL20E

This medium-sized electric stove has a chic matt white finish for a modern twist on a classic stove design, making it ideal for living rooms, dining rooms and even bedrooms.

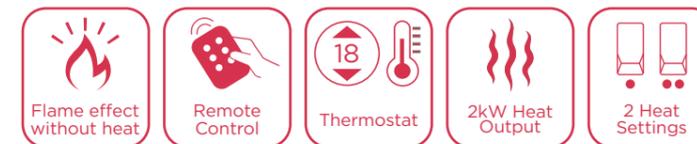

- Latest Optiflame effect with LED lighting and downlight for improved flame picture
- Single opening door
- Log effect fuel bed
- Compatible with hearth pad HPD001

LUC20

This charming medium-sized black cast iron effect stove is perfect if you want the authenticity of a real fire but have limited space or budget. It has a single opening door to ensure you get maximum view of the lovely flame effect.

- Latest Optiflame effect with LED lighting and downlight for improved flame picture
- Single opening door
- Log effect fuel bed
- Compatible with stove pipe accessory STP001 and hearth pad HPD001

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers.

TNG20E

Similar in size to the Springborne, the Tango can also be freestanding or fitted into or on a standard fireplace or hearth. This features a real coal fuel bed.

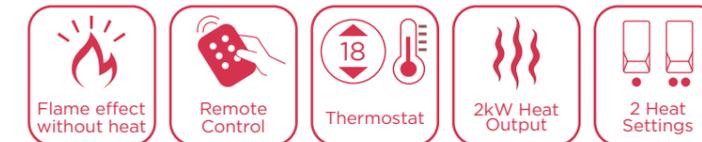

- Optiflame flame effect
- Two opening doors for added realism
- Real coal fuel bed
- Compatible with stove pipe accessory STP001 and hearth pad HPD001

SBN20E

Small and stylish, the compact Springborne features a coal effect fuel bed and has been designed to fit in or on a standard fireplace and hearth, or can be freestanding against a wall, making it ideal for living rooms and bedrooms alike.

- Optiflame flame effect
- Two opening doors for added realism
- Real coal fuel bed
- Compatible with stove pipe accessory STP001 and hearth pad HPD001

BAR20

This small stove is a modern interpretation of a classic design, with large glass window and sleek chrome handle, making it perfect for anyone with limited space looking to create an instant fireplace.

- Latest Optiflame effect with LED lighting and downlight for improved flame picture
- Log effect fuel bed
- Opening door
- Compatible with stove pipe accessory STPO01 and hearth pad HPD001

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers.

SVT20

The Silverton basket fire is ideal for bringing unused fireplaces back to life. The realistic log fuel bed is enhanced by LED under bed lighting for a warming glow.

- Optimyst flame effect
- Removable glowing ash bed
- Log effect fuel bed
- Requires some assembly

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers.

Inset fires

Sit back and relax around a traditional fireplace as our range of inset fires offer stylish electric fires suitable for 16 and 18-inch fireplaces.

Available in traditional or modern designs, many also offer different colours and finishes, as well as different flame effects so you can find the perfect fire to suit your design needs and your budget.

- Fit flat to wall

CHT20 (remote)
DTT20 (manual)

The Zamora is finished in matt black with a stepped chrome effect finish fret, while the Castillo is a contemporary chrome and satin silver effect fire, with a nod to Art Deco design.

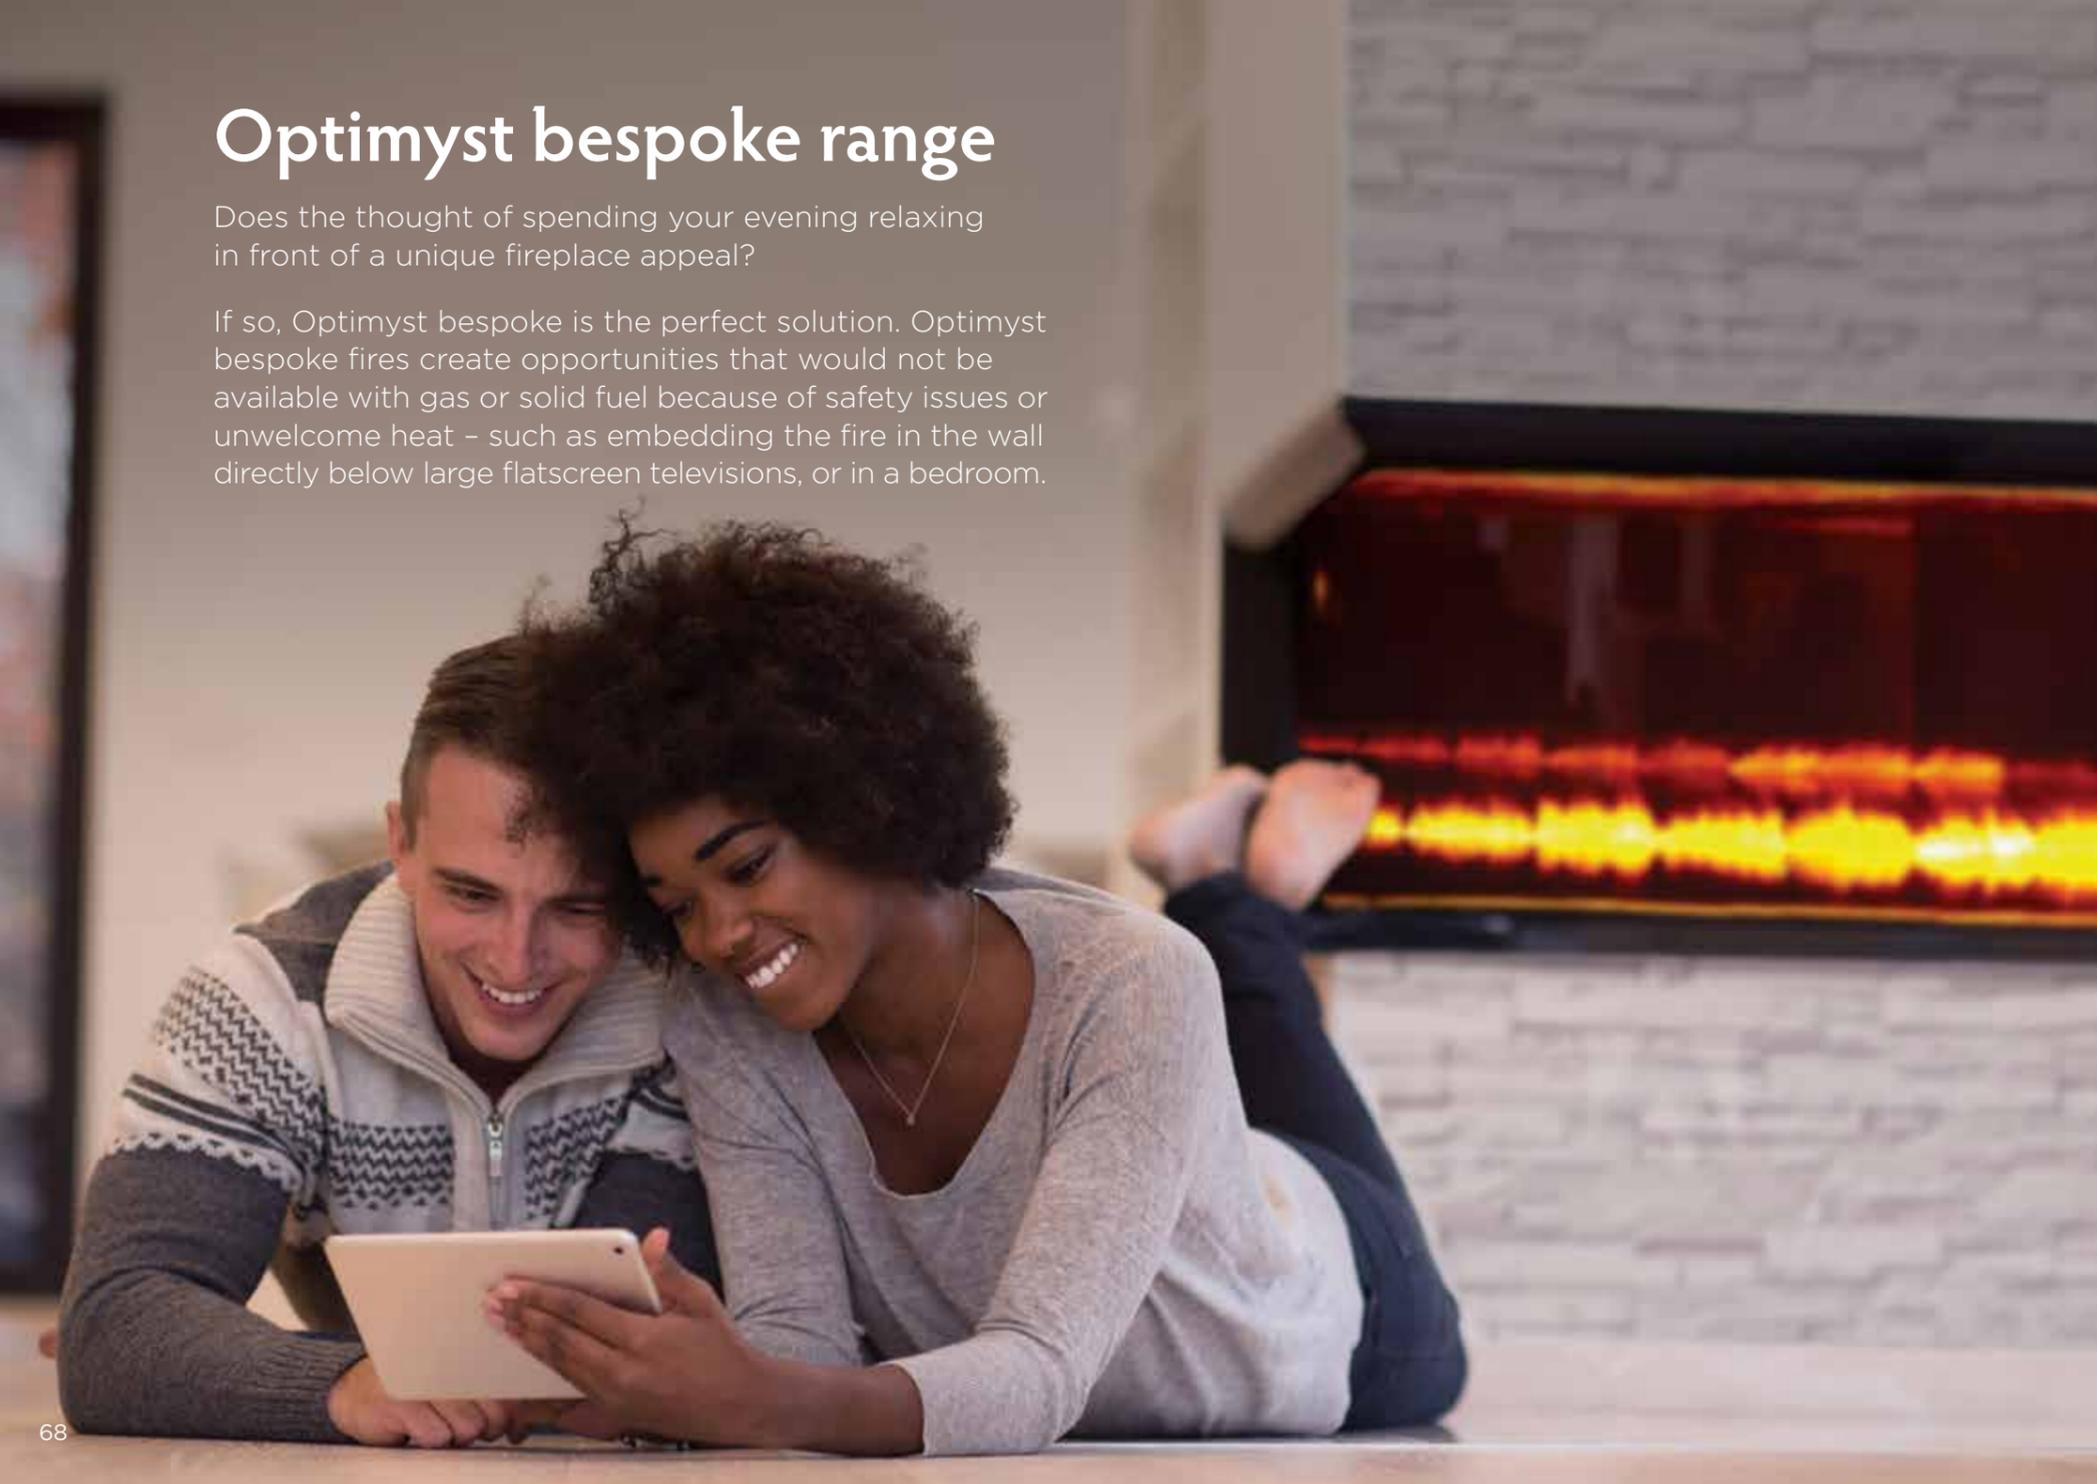

- Optiflame flame effect
- Choice of real coals and white pebbles fuel bed (both options included)
- Compatible with optional hearth pad, model no HPD001 - shown on Zamora
- Fit flat to wall

Optimyst bespoke range

Does the thought of spending your evening relaxing in front of a unique fireplace appeal?

If so, Optimyst bespoke is the perfect solution. Optimyst bespoke fires create opportunities that would not be available with gas or solid fuel because of safety issues or unwelcome heat – such as embedding the fire in the wall directly below large flatscreen televisions, or in a bedroom.

Cassette 1000

CAS1000

Our range of Optimyst cassettes are perfect for creating the focal point in a piece of bespoke furniture or an eye-catching and individual fireplace. In fact, the possibilities are endless – and are just waiting for your imagination.

- Optimyst flame effect
- Fully variable flame and smoke intensity control
- Remote control
- Cassettes can be used with or without log fuel bed

When registered within 28 days of purchase
dimplex.co.uk/register

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers.

Cassette 500

Optimyst cassettes are truly unique and offer the beauty of a real fire with the simplicity of electric. Our cassettes enable you to create a stunning centrepiece in any room setting and with a choice of installation options, you really can design the ultimate focal point.

- Optimyst flame effect
- Fully variable flame and smoke intensity control
- Remote control
- Cassettes can be used with or without log fuel bed

This fire is only available through Dimplex Centre and Dimplex CentrePlus retailers.

Optimyst Cassette

Cassette 400

Cassette 600

Cassette 400/600

- Quick-fit IEC (kettle) connection
- No heat
- Medium width cassette 400 (model: CAS400NH)
Inset Height (mm): 171 / Width: 405 / Depth: 216
Power consumption 200W
- Large width cassette 600 (model: CAS600NH)
Inset Height (mm): 171 / Width: 564 / Depth: 216
Power consumption 200W

Cassette 500

Cassette 1000

Cassette 500/1000

- Can be connected in series to other 500 or 1000 cassettes
- Crackling logs & adjustable sound
- LED glowing log bed
- No heat
- Quick-fit IEC (kettle) connection
- Medium width cassette 500 (model: CAS500)
Inset Height (mm): 236 / Width: 508 / Depth: 354
Power consumption 200W
- Large width cassette 1000 (model: CAS1000)
Inset Height (mm): 236 / Width: 1017 / Depth: 354
Power consumption 400W

Models available:-

CAS500R & CAS1000R (Retail)

Retail model has an easy to fill water tank and comes with log fuel bed.

CAS500C & CAS1000C (Commercial)

Commercial model connects to mains water supply no manual refill required. Please note that log fuel bed is available as an accessory and does not come with the Cassette 500 & 1000 Commercial models.

Optimyst Chassis

Chassis 400

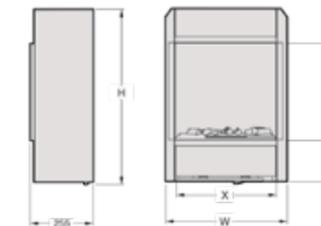

Chassis 600

Chassis 400

- Medium width chassis
- 2kW fan heater with choice of two heat settings
- Thermostat
- Quick-fit IEC (kettle) connection
- Model: ENG56-400

Chassis 600

- Large width chassis
- As used in Dimplex Alameda
- 2kW fan heater with choice of two heat settings
- Thermostat
- Removable brick effect back panel
- Quick-fit IEC (kettle) connection
- Model: ENG600-BRE

MODEL	Chassis 400	Chassis 600
'H'	700 mm	700 mm
'W'	490 mm	646 mm
'X'	413 mm	569 mm
'Y'	395 mm	395 mm

How does Optimyst work?

Our patented Optimyst flame effect is a stunningly realistic illusion of flames and smoke, almost impossible to distinguish from the real thing.

This fantastic effect is made possible by the Optimyst glass disk transducer, which sits inside an Optimyst fire and creates the ultra-fine mist that forms a key part of the world's most realistic electric flame effect.

The transducer uses ultrasonic technology to create an ultra-fine water mist via a glass/ceramic disk within the transducer which vibrates at high speed. The resultant mist rises through the log bed and reflects the light from the lamps within the unit, creating the incredibly realistic, three-dimensional illusion of flame and smoke.

- Easy to re-fill water bottle under fuel bed
- Runs on average 8-10 hours before refill needed
- Water is at room temperature, so no heat
- Mist is so fine it does not add significantly to room humidity

After Sales Service

If you require after sales service please visit www.dimplex.co.uk/support.

Safety Standards

Our products carry the CE and/or UKCA mark complying with safety standards for electro magnetic compatibility.

British Electrotechnical Approvals Board BEAB Approved

The mark of the British Electrotechnical Approvals Board signifies that the appliance bearing it has been produced to the stringent safety requirements for domestic electrical appliances as laid down in BSEN60335.

The majority of Dimplex electric fires are approved by BEAB or awaiting approval at time of printing.

Specifications

At Dimplex our policy is one of continuous improvement; the Company therefore reserves the right to alter specifications without notice. Although every care has been taken in the reproduction of product finishes in this brochure, the colour photographs and the flame effects should be taken only as a guide. Though accurate at the time of printing, this brochure is not intended to replace any installation manuals which provide more detailed information. The statutory rights of the consumer are not affected. No liability will be accepted for problems caused by poor installation or misuse of the product. You are advised to consult your dealer before purchasing. For a list of your local retailers please visit www.dimplex.co.uk

Selected surrounds featured in this brochure were supplied by the companies listed below. Any surround not listed is no longer available. Please note that some of the surround designs listed may have been discontinued by their manufacturers.
